

Mechanical Services HEI can provide

- Air Conditioning Heating Ventilation
- Sanitary and Storm Piping
- Domestic Water Piping and Systems
- Building Automation Systems
- Medical Gas and Piping Systems
- LEED Certification
- BIM Design
- Energy Audits

Types of Facilities HEI Designs

- Medical
- Educational
- Institutional
- Commercial
- Industrial
- Laboratory Design
- Computer Room Design

HEI Hinkel Engineering, Inc.

Is Now

HEI News!

Lewis Hinkel is proud to announce that Dan Evans has become a Principal with the company. With the addition of Dan as a partner, it was decided to rename the company to HEI Engineering Group, Inc. The new partnership and name change was completed on January 1st 2015.

HEI Engineering Group is also proud to announce that Stacey Lloyd has been promoted to Senior Associate.

HEI is looking forward to the new changes and a great 2015!

Our Philosophy Remains the Same

Mission

HEI Engineering Group, Inc. strives to provide to our clients the optimal design solutions allocating the highest standards for compliance, sustainability, quality and experience. We partner with the architectural and construction industries to offer the most innovative products and designs.

Experience

The HEI management team has over 150 years of experience with engineering design in nationally recognized projects. HEI Engineering Group, Inc. is active in a wide variety of facility design type projects including general office facilities, retail facilities, assembly facilities, sports and recreational facilities, healthcare and nursing home facilities, educational facilities (elementary thru post-secondary) and industrial/manufacturing facilities as well as process applications.

HEI Team

The team is led by Lewis Hinkel and Dan Evans who offer over 45 combined years of experience in the mechanical consulting engineering field. Lewis is a member of the American Society of Plumbing Engineers, the American Society of Heating, Refrigerating and Air-Conditioning Engineers, the Association of Energy Engineers and the National Society of Professional Engineers. Dan is a member of the American Society of Plumbing Engineers. HEI has a support staff of six full time engineers and designers.

Knowledge

HEI Engineering Group, Inc. uses AutoCad along with AutoCad Revit software to produce design documents and BIM drawings, ASHRAE based calculation software for HVAC thermal load analysis, manufacturer's software for equipment selection as well as numerous custom spreadsheet applications.

Sustainability

HEI Engineering Group, Inc. is committed to the principle of sustainability. The companies strategically and competitively balance environmental resources and economic objectives while implementing engineering solutions for new opportunities. As a business today, HEI Engineering Group, Inc. implements the strategies, business practices and policies that support a vibrant economy, healthy environment and strong community.
